Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior partitioning walls, including common area masonry such as structural walls and other non-air structure components of the building and in conformity with the dimensions that would be determined by using the description and definition of the "unit" set forth in the Declaration (which generally only includes the interior space between the interior walls and excludes interior structural components). For your reference, the area of the unit, determined in accordance with the stated dimensions, is 1,373 square feet (levels 10, 12, 14-21), 1,371 square feet (levels 22-33) and 1,376 square feet (levels 34-41). While the measurements above are for the unit's floor plans, the floor plans are generally taken at the greatest points of each living room and kitchen to show their respective widths, without regard to any closets. Also, the height of the unit is 10 feet. The actual unit will typically be similar to the product described by the listing. The stated area is for informational purposes only and is not a guarantee of the actual area of the unit. The floor plans and development plans are subject to change. The size and configuration of balconies and terraces varies throughout the building. The listing diagram is a general representation of the building and is not a reflection of the actual size or configuration of the building for each unit of this unit type.
